# Alta Vista Foundation

## Housing for Active Christian Scientists

Alta Vista in Santa Barbara offers independent living for Christian Scientists. Nestled between the Pacific Ocean and the coastal mountains in a beautiful park-like setting, our newly renovated apartments are only two blocks from the heart of downtown Santa Barbara and 1 1/2 hours north of Los Angeles. Individuals and couples, 55 years and up, are invited to join our 25-unit community. Studio and one-bedroom apartments are now available to rent, or you can place your name on a waiting list. Rent is adjusted to your income if necessary and there is no maximum income limit. We would love you to consider Alta Vista for your new home. Give us a call. Also, tell your friends about "our slice of heaven." On site visit and personal interview upon application is required.

# Arden Wood

Arden Wood's history is filled with nearly eighty years of healing and regeneration. Founded in the late 1920's, The First Church of Christ, Scientist in Boston, Massachusetts, The Mother Church, selected the current wooded site for a West Coast Christian Science nursing facility. Construction began in 1929, and the "Christian Science Benevolence Association on the Pacific Coast" opened in May of 1930 and was operated by The Mother Church. In 1973, the facility began operating as a private, non-profit organization with a local Board of Trustees. It then became known as the "Arden Wood Benevolent Association," and later, "Arden Wood, Inc."

Arden Wood's mission is to support healing through skillful Christian Science nursing care and training, inspired living, and Christly service. In support of our mission, Arden Wood provides 24-hour nursing care 365 days a year. We also offer education for Christian Science nurses who serve in both facility and home care settings.

Another key element that supports our mission is our residential program. Arden Wood has become home to a number of Christian Science workers, who have devoted a significant portion of their lives to serving the Cause of Christian Science. Residential apartments are now available for rent, offering dedicated Christian Scientists a supportive, gracious environment in which to live. Lovely meals, weekly housekeeping services, helpful staff, beautiful gardens, woodland paths, fully-equipped libraries, metaphysical talks, Bible classes, and hymn sings make Arden Wood living unique and enjoyable. Our residential and recreational activities staff work daily to provide an atmosphere of support and a sense of home for each of our residents.

Helping to complete our mission is our Spiritual Renewal program. Arden Wood is known worldwide as a place to find spiritual rejuvenation, a place where Church members can come to refresh their thoughts and delve further into their study of Christian Science, unencumbered by daily activities or interruptions. Meeting space is available for Bible study workshops and Christian Science students' Association meetings.

We would love to have you visit Arden Wood at any time! For more information about any of our services or programs please call us at one of the numbers above. You can also find us on the Internet.

# Cedar Ridge Foundation

Nestled in a wooded area of Wisconsin's Lake Country, Cedar Ridge offers independent residential living for active Christian Scientists. With frontage on two lakes, residents have access to many water activities and fantastic views. The well-maintained trail to the "point" is a great place to hike and catch candid views of nature. Its proximity to Milwaukee and Madison make Cedar Ridge just minutes away from major transportation, shopping, and entertainment.

Residents enjoy individual apartments with 1 or 2 bedrooms or Lodge suites in single, extra large or double rooms. Meals, utilities, maintenance, and transportation to church services, lectures, shopping, and entertainment trips are included in the affordable monthly fee. Housekeeping and three meals are included with Lodge suites.

Need a getaway, rest and study? We welcome you. Visit for a few days, a few months or spend an entire season at Cedar Ridge. Contact us for our very reasonable rates.

To schedule a visit please call (262) 646-2731.

For a free packet of information, call, write or email us at the address above.

# Chestnut Hill Benevolent Association

Independent Living at Chestnut Hill Benevolent Association is comprised of a community of senior Christian Scientists, leading active, independent lives. Their daily practice of Christian Science includes support of the BA's core mission programs located in the Christian Science Nursing Building next door, such as Christian Science nursing, a training school, and our Visiting Christian Science Nursing Service.

Independent Living is housed in the historic Original Building, which has served as a gracious home for Christian Scientists since 1975 when a group that included some of Mrs. Eddy's early students and some of their pupils relocated here from Pleasant View Home in Concord, New Hampshire. In 1981 the Christian Science Board of Directors transferred the entire organization with all its programs from The Mother Church to autonomous control under the direction of a Board of Trustees. Today, the lovely 24-acre wooded campus, well-appointed living spaces, and proximity to Boston continue to offer Christian Scientists a delightful blend of country living close to the heart of the city. Residents, Christian Science nurses and other staff members, and Rest & Study guests come from many walks of life and from many parts of the world.

The BA campus includes woodlands, lawns, gardens, and walking paths just minutes from the world-class cultural, educational, and entertainment attractions of the Boston area. Also nearby are The Mother Church, the Mary Baker Eddy Library, Longyear Museum, several branch churches and their Reading Rooms, and other sites of interest to Christian Scientists.

A variety of apartment floor plans are available with pleasing, wooded views. Gracious common rooms, light-filled bay windows, and an extensive collection of books, original art, and antique furnishings offer opportunities for refreshment and places for making new friendships and visiting with family and other guests.

Other amenities include:

- Three meals a day prepared by our award-winning Executive Chef and his staff, and served in our central Dining Room
- Weekly house-keeping services
- 24-hour security, and full maintenance and grounds services
- All utilities are included with the exception of long distance telephone service
- Free wireless internet service and satellite-enabled television services are available
- Transportation to church services at The Mother Church, Christian Science lectures, local shopping and restaurants, and individual appointments
- A wide array of other activities both on and off campus such as hymn sings, movies, community-service projects, music and theater performances, visits to area museums, writing workshops, discussion groups, Boston-area day trips, and occasional afternoon teas.
- Special programs offered to the wider BA community in the Boston area, including the graduation ceremony for Christian Science nurses who have completed the BA's training program.

If you would like more information, please contact Tom or Marion Harvey, who jointly serve as Directors of Independent Living. You can reach them by calling 800-662-9937 or via email at [independent@chbenevolent.org](mailto:independent@chbenevolent.org).

# Corinthian House Residence

Corinthian House Residence offers affordable housing for those 62 & over in a loving atmosphere. We are located about 50 miles south of San Francisco near San Jose, CA.

We have 102 apartments, of which 36 are federally subsidized (Section 8) and six are subsidized through the county Housing Authority. Our mandatory meal program provides congenial dining on weeknights. There is a well-stocked library, numerous Internet-connected computers, and WiFi available throughout the facility. All apartments, whether a studio, one-bedroom, or one modified for the mobility impaired, include a kitchen with range and full-size refrigerator.

An active resident association, craftroom, and full social calendar, make this a happy home.

Please visit our web site referenced above for more information.

# Daystar Foundation, Inc.

Daystar in Needham, Massachusetts, located ten miles southwest of Boston, is an alternative for students of Christian Science who, in later years, are looking for harmonious, meaningful activity without the daily responsibilities of maintaining their own homes.

It is an attractive, gracious environment where residents enjoy comfortable rooms, three balanced meals each day, spacious areas for study, relaxation and recreation, garden areas and ample opportunity to pursue their own interests.

Daystar is just two blocks from the center of town, with its many shops, restaurants, community programs and amenities, including convenient public transportation into Boston. The Christian Science branch church and Reading Room are nearby.

Opened in 1972, Daystar's trustees and staff work diligently to provide a broad range of group activities, while also taking care to assure each resident full freedom and privacy for independent daily living.

# Daystar Retirement Village

Daystar Retirement Village, nestled in an attractive West Seattle neighborhood, offers studio, one-, or two-bedroom private apartments for independent living, as well as studios for those needing assistance with day-to-day activities. The 110 apartments are artfully constructed to maintain privacy, while promoting a sense of neighborhood. Comfort and beauty are built into each spacious home.

Daystar is a warm, secure, close-knit community. The meal plan is flexible, based on resident preference and requirements. In any case, dining is a happy occasion in an intimate setting, so it's easy to make friends. The campus has lovely walking paths through its well-tended gardens, which border a large park. Westwood Village shopping center is just across the street, and downtown Seattle is minutes away. A full activities calendar includes a wide range of possibilities. Residents can take advantage of lunch jaunts, concerts, and lectures. Or, they can take part in many in-house activities. Abundant life at Daystar means that there are ample opportunities to reach out and get involved, as well as plenty of time to dig in, research the books, and refresh.

Daystar nurtures an atmosphere supportive of the study and practice of Christian Science. This includes daily reading of the Bible Lesson, hymn sings, Christian Science lectures, and transportation to the nearby branch Church of Christ, Scientist for Sunday and Wednesday evening services. When it's important to escape the distractions of household activities, there is a well-equipped Study Room, complete with the writings of Mary Baker Eddy, bound volumes, concordances, and Bible reference books.

At Daystar, the emphasis is on the forever development of God's man. We value your individuality and your independence, and we cherish your desire to lead a full, productive and progressive life.

# Glenmont Inc.

## Services at Glenmont

In addition to full Christian Science nursing care, we also provide Progressive Living. This service is for students of Christian Science who are in large measure independent but currently need freedom from everyday tasks in order to support physical healing and/or spiritual regeneration, are dedicating themselves to a regime of daily prayer, and can benefit from oversight and occasional assistance with tasks such as bathing or dressing.

## About Glenmont

Founded in 1931, Glenmont is one of the oldest and largest Christian Science nursing facilities in the world. Originally located in a mansion on the east side of Columbus, Ohio, Glenmont has occupied its current modern, light-filled facility since 1987. Glenmont's mission is to exemplify the healing ministry of Christian Science as articulated in the Church Manual and in Science and Health with Key to the Scriptures by Mary Baker Eddy. We are dedicated to:

- Serving all those whom God sends to us to be served;
- Supporting Christian Science healing through spiritual regeneration and radical reliance on God;
- Loving our patients and staff wholly, with Christly affection, thereby fostering a spirit of home and Christian community;
- Encouraging each nurse to express his or her Christian Science nurse ministry in direct relation with God;
- Providing excellence in patient care.

The facility is a Medicare/Medicaid provider and a not-for-profit, 501(c)(3) tax-exempt organization.

# Glenridge

Glenridge is a community of Christian Scientists within Garden Villa, a full-service retirement community. We are located in suburban St. Louis, just minutes away from First Church of Christ, Scientist, Town and Country, and The Principia School.

Operating since 1987, Glenridge maintains a supportive atmosphere where members may continue to practice Christian Science. Application to Glenridge requires active Mother Church membership. A spouse need not be a Christian Scientist.

Garden Villas is a St. Louis retirement community operated by Delmar Gardens Enterprises. They offer three apartment styles: studio, one bedroom, and two bedrooms, with bathroom(s) off each bedroom, ample closets, and a balcony or patio. There is also a designated storage locker for each apartment. Amenities include: a fully staffed dining room offering three meals a day, mail boxes with regular service, 24 hour staffing, inviting lounge areas, weekly maid service, flat linen service, a beauty and barber salon, a library, a heated outdoor swimming pool, a golf putting green, myriad activities and special events, transportation to shopping and banking, scheduled outings, and transportation to church Sunday morning and Wednesday evening.

We invite your inquiries and would be happy to arrange a tour at your convenience. Please call our office for information and to ask for a brochure. We would love to hear from you!

# Harmony At Home Foundation

Harmony at Home Foundation provides all levels of Christian Science nursing care including assisted care, visiting nursing, or 24-hour private duty home nursing care either in the client's home in the greater Chicago area or in one of our three beautiful homes in suburban Naperville, Illinois. Rest and Study, outpatient care, companionship, and transportation to our home or another Christian Science nursing facility are available. Mentally challenged clients considered. Initial in-home assessment is free of charge. We are a non-profit foundation with benevolence available to those who qualify. All levels of Christian Science nurses' training are offered with grants to earn while you learn. We are a nationally recognized leader in homecare training.

# The Open Gate Association, Inc.

The Open Gate invites you to visit our lovely turn-of-the-century home with modern wing where twenty-four private rooms with private baths and four separate one bedroom apartments are available for full-time residence. Set in lovely grounds, The Open Gate is within walking distance of Long Island's Great South Bay, the Bay Shore Christian Science Society and Reading Room, the shops on Main Street, the local YMCA and the railroad station to New York City.

Transportation to church, various planned activities, shopping services, three delicious meals per day served in our cheerful dining room, Christian Science Lesson-Sermon videos and tapes, housekeeping and other services are provided at moderate monthly rates. Some personal care is available for residents on an individual basis.

Guests are also welcomed for brief periods of quiet and rest on a daily basis.

# Redwood Community for Christian Scientists, Inc.

The Redwood Community provides a loving, home-like atmosphere where the tenets of Christian Science are lived and practiced by the staff and residents. Assisted living care is given by Christian Scientists for Christian Scientists. We have formed a non-profit corporation to be of service to the church community and have had residents from as far away as Illinois. Our home is licensed by the State of California.

Residents receive three well-balanced and attractive meals each day as well as snacks. Bathing and dressing assistance, as needed, is supervised by a trained Christian Science nurse as are other nursing needs. And an experienced Christian Scientist is present on the premises 24 hours a day.

A balance of activities is assured, including church attendance, spiritual study, as well as a variety of other activities (social and educational). Residents are encouraged to strive for independence and to continue their normal routines. Transportation is provided to church services and meetings and will be either provided or arranged so residents can keep other commitments such as dental appointments.

For information and rates, please call or write us at the address and number above.

# Rockhaven/Upson Trust

Rockhaven is a modern housing complex for active Christian Scientists of retirement age. It is located in the beautiful New England town of Glastonbury, CT. Our independent living apartments include complete kitchens, a washer and dryer in each apartment, beautiful oak hardwood floors, and many other lovely features.

Maintenance is tended to by management, so residents can enjoy their retirement years engaged in activities that inspire, challenge and entertain. No need to worry about weekend repairs, roof leaks, or shopping for a new washer. Landscaping is done by a contractor, but residents can putt around tending a few flowers if they wish. Snow removal is all taken care of, so no need to even buy a shovel or ice melt.

Glastonbury is a lovely town with many orchards and farms. The summer produce is as good as you get anywhere in the land. You can pick it yourself or just stop at one of the many local farm stands and load up with goodies from that day's pickings. The fresh-pressed cider and home-made apple fritters in October can't be beat!

Located just 8 miles outside of Hartford, residents enjoy the cultural offerings of that city, or one can easily get to Boston or New York City for more "big city" events. Both are within a two-hour drive.

If you would like more information about Rockhaven, please click the link above and visit our web site.

# Tenacre Foundation

Tenacre's Christian Scientists-in-Residence program invites active Christian Scientists to join a community bound together by their love of Christian Science and desire to participate in Tenacre's mission and ministries.

Just as an artist-in-residence brings artistic skills to an arts community, our residents share with Tenacre their rich and varied lives spent in loving God and man. We cherish their prayers, insights, and sharing which provide warmth and richness to our community canvas. In return, Tenacre is committed to encouraging and supporting their natural expression of independence and spiritual growth within the Tenacre community.

Studio and one- and two-bedroom cottages are located in a lovely wooded setting at the heart of Tenacre's 65-acre campus. Each cottage includes an eat-in kitchen and private bath, as well as a washer/dryer, housekeeping services, linens, utilities and basic telephone service. In addition, each cottage has access to Tenacre's 5-channel public address system that airs inspirational programming — including the Christian Science Bible Lesson — 24-hours a day, every day. The cottages can be furnished or unfurnished. If desired, meals can be taken in Tenacre's sunny cafeteria-style dining room.

The Tenacre community includes a Spiritual Resource Library open to Christian Scientists-in-Residence 24 hours a day. It offers a collection of over 5000 study and resource books in an atmosphere that supports spiritual progress. During the summer months, Tenacre's outdoor swimming pool is available to residents during the day. Scheduled transportation to church and shopping in Princeton is offered. The larger Princeton community — home to Princeton University, the Institute for Advanced Study, Princeton Theological Seminary, Westminster Choir College, The American Boychoir School, among other attractions — is wonderfully rich in cultural opportunities. Princeton is located midway between New York City and Philadelphia, both of which are easily accessible by public transportation.

Tenacre's Christian Scientists-in-Residence ministry is open to members of The Mother Church. For further information, please call 1-800-626-9155. We would be delighted to hear from you!

# Tender Care at Home

Tender Care at Home provides a 24/7 assisted living residence for Christian Scientists.

It is a five-bedroom home in a Ballwin, Missouri neighborhood, just 10 minutes from The Principia School in St. Louis.

Since opening our doors in early June, 2008, our mission has been to “Serve the Cause of Christian Science while providing personal assistance that is dignified and respectful...”

## **We provide:**

- A professional staff of Christian Scientists
- Rooms furnished or unfurnished (if you have your own furniture), some with private bath
- Assistance with bathing, dressing, and personal care
- Three delicious meals a day
- Housekeeping, linen, and laundry service
- Daily C.S. Bible Lesson setting for study and prayer
- Transportation to church
- A welcoming living room with fireplace and entertainment center, lovely dining room, large eat-in kitchen, and patio for bird-watching

Please call our business manager at (618) 541-8945, or email us at [TenderCareHome@hotmail.com](mailto:TenderCareHome@hotmail.com)

We are a non-profit 501(c)(3) tax-deductible organization.

# Twelveacres, Inc.

*“...a determined, joyful denial of limitation.”*

Twelveacres is an independent, full-service, non-profit corporation providing drug-free living in six homes in the San Jose, CA area. In these homes reside developmentally-challenged adults who wish to rely entirely on spiritual healing as practiced in Christian Science. Twelveacres is the only facility of its kind in the world, serving both ambulatory and non-ambulatory residents. Twelveacres, established in 1932, is Silicon Valley’s oldest care provider. Educating the “Whole Person” spiritually as well as mentally, culturally, creatively, and physically, is an integral part of Twelveacres’ methodology. Residents’ progressive achievements and growth are expected and experienced.

The unique story being written at Twelveacres is about individuals: the residents - their quality of life, their daily progress, their goals - and the staff, whose loving commitment is to help each resident achieve his/her fullest potential in a drug-free, non-medical environment which emphasizes the “Whole Person” - mental, physical, spiritual, cultural, and creative.

# Wellspring Gardens

Wellspring Gardens provides Christian Scientists with assistance in daily living in lovely, relaxed home environments. Located in Converse, a quiet suburb of San Antonio with a small town flavor, it is only 20 minutes from the International Airport and the heart of the city.

Each resident's individual spiritual growth and progress is supported through availability of the weekly Bible Lesson, Biblical workshops, individual readings, inspirational tapes as well as informal church services. Personal care, companionship and a variety of in-house and outside activities are provided as appropriate to the individual's needs. Vans with wheelchair accommodations transport residents to local churches, lectures and other selected events.

Brochure available upon request.

# Western Reserve Residences, Inc. The Alcazar

We invite you to consider Senior Independent Living in a gracious historic hotel (now apartments!) serving guests on a nightly and monthly basis as well as those seniors who are at home here. Three of The Alcazar's most charming aspects are a distinctively handsome building of Spanish Architecture, proximity to the Cleveland cultural center (museums, symphony hall, university) and the delightful friendly atmosphere.

Our van provides transportation to church services, lectures and events of interest to our residents. The neighborhood is well suited for walking, and public transportation can be accessed at the corner. The building has a dining room available for events, twenty-four hour desk service and maintenance, a laundry facility and a heated garage for those with an automobile.

Monthly rates include utilities, cleaning service, and linens. Furniture is available for a charge, if desired. There is no lease, entry fee, or purchasing of apartments. The Alcazar is also an alcohol and tobacco free facility, and pets are not permitted. We offer a two-night complimentary stay to those seriously interested in the possibility of permanent residency here at The Alcazar.

Our comfortable Study Room is stocked with the bound volumes and current literature. The Christian Science Pastor, The Holy Bible and Science and Health with Key to the Scriptures, by Mary Baker Eddy, is always available and marked with the current week's Bible Lesson

We are home to Christian Scientists and to those of other religious beliefs. Additional information is available at our web site or call Sandra Martin at the numbers above.

# The Willows Foundation

The Mission Statement of The Willows is “To offer practicing Christian Scientists a loving residential environment realizing that The Willows is not intended for a place of retirement into comfortable matter, but a place of spiritual growth and activity, where one will have an opportunity to progress, and further his individual advancement, and in so doing, support the cause of Christian Science.”

(Rex Hodges, Founder and President Emeritus) That just about sums up who and what we are all about.

In supporting the cause of Christian Science, living at The Willows is a precious opportunity to share our understanding of the writings of our beloved Discover, Mary Baker Eddy.

You’ll find The Willows to be a place with a quiet and unique atmosphere. A place for spiritual refreshment and renewal. In our garden-like community there are one, two and three bedroom villas for rent or lease, plus several fully-furnished guest houses. We would love to have you join us as a resident or visitor.
